February 2026 Message from Your Chapter Chair, Mary Therese Tylus, MA

Happy Valentine's Day, everyone! Hope everyone continues to stay safe and warm.

A few things are happening with the Chapter as we move from mid-February (our shortest month of the year) and into March.

I would like to make a few announcements about some Chair position changes! First, I want to thank Robert Long for his dedication as one of our Co-Webmasters for the past two years. Bob notified us that he will be stepping down at the end of March from the position due to changes in job responsibilities and family obligations. We truly appreciate all his hard work as our Co-Webmaster. Thank you, Bob, for rocking that position!

Second, I want to thank Jack Phillips, our Law Enforcement Liaison, for his service these past three years to our Chapter in this role. Jack has done an amazing job in spreading the word about ASIS International and the Chicago Chapter to the various levels of law enforcement (local, state, and federal) and encouraging them to join our esteemed organization. He is the brainchild behind the introduction of the law enforcement ticket we offer to active and former law enforcement as a way of saying thank you for your service to the public in protecting us all. Jack will be stepping down effective March 1 due to work and family obligations as well. Thank you, Jack, for such an amazing job!

With Jack vacating the Law Enforcement Liaison role for our Chapter, the Chapter is now searching for his replacement. Anyone interested in the position, please reach out to me or our Vice Chair, Andrew Bartol. We will be happy to speak with you about the role. Our contact information is listed later in this newsletter on the "Help Wanted" page.

February 2026 Message from Your Chapter Chair, Mary Therese Tylus, MA

Next, I would like to welcome Demetrius Anderson to the role of Co-Webmaster. He has been working with Bob to transition into this role and will be assisting Connika King, our other Co-Webmaster. Look for some changes and possible enhancements to our website in the months to come. If you have any suggestions, please reach out to Demetrius. You can find his contact information on our website! Welcome to the Team, Demetrius!

Later in this newsletter, you will find some information on the CyberSecurity Summit being held in Chicago on March 3, 2026, at the Hyatt Regency, 151 E. Wacker Drive. The Chapter has arranged a special code for this event that members can use to register for this event, which gives you a complimentary pass to the all-day event. See later in this newsletter for the special code and other information about the event.

And finally, don't forget to join us for our monthly Chapter meeting on Thursday, February 19, 2026, at Harry Caray's. Our featured speaker is our new Co-Webmaster, Demetrius Anderson, who will be speaking on the topic of "AI Driven Surveillance - The New ROI." Tickets are on sale, so don't forget to sign up! I look forward to seeing all of you at the meeting!

Take care, everyone, and stay safe!

Some Changes to Chapter Practices Beginning Immediately:

- Starting immediately, the Chapter will no longer have available at pre-registration for our events “Pay at the Door”. We have run into problems with members/nonmembers registering for events with Pay at the Door and then not showing. Because we count you in the RSVP, we are still charged for that ticket. Therefore, to avoid attempting to collect later, we are no longer providing that courtesy. All registrations starting with our Holiday Party 2025 will require payment at the time of registration.
- We will still be able to take “walk-ins” on a limited basis at our events, so if your schedule frees up at the last minute, please feel free to attend an event. The only exception is if there is a hard RSVP date, then walk-ins will not be available.
- When you pay your Chapter Dues now, you will have the option of checking the “Auto Renew Button”. This way, just like International, we are rolling out this feature to make paying your Yearly Chapter Dues easier for everyone! We hope you enroll in that new feature!
- Note that beginning with registration for our January Chapter meetings, the ticket price has gone up slightly. See elsewhere in this newsletter where we highlight the new ticket prices.

We appreciate your understanding as we implement these changes in order to maintain the financial health of the Chapter.

New Pricing for 2026 Monthly Meetings

Due to a slight increase in pricing from Harry Caray's for 2026, our ticket prices for the monthly Chapter meetings are increasing slightly, starting with ticket sales for our January 2026 meeting:

\$50 – Member No Parking

\$60 – Nonmember No Parking

\$58 – Member + Valet Parking

\$68 – Nonmember + Valet Parking

Ticket prices for the monthly 2026 Chapter meetings for the Chapter's Law Enforcement and Military remain the same:

\$19.00 Member Current/Retired Law Enforcement/Military Discount + Valet Parking

\$19.00 Non-Member Current/Retired Law Enforcement/Military Discount + Valet Parking

ASIS Chicago Chapter

FEBRUARY MEETING

SPEAKER INFORMATION

Event Speaker:

Demetrius Anderson

AI Driven Surveillance - The New ROI

With 38 years of experience as a first responder, Demetrius is a physical security expert. He specializes in access control and surveillance, leveraging Crime Prevention Through Environmental Design (CPTED) concepts and the integration of AI, OSINT, and IoT in modern security solutions. Currently, his efforts are focused on contributing to various advisory boards.

Demetrius has been a major force behind organizing stakeholders to implement AI model overlays on existing surveillance systems. Leveraging extensive industrial knowledge in physical security, surveillance, and related technologies, his comprehensive background includes heading the technical services unit of the police department and contributing to a wide range of critical security initiatives. His experience encompasses managing security for several BSL3 labs, conducting research related to Cesium-137, and performing numerous physical security assessments. He has also served as a liaison to the Illinois State Terrorism & Intelligence Center (ISTIC), Chicago Counter Terrorism and Organized Crime Center (CPIC), and the Department of Homeland Security (DHS). At the University of Illinois Chicago (UIC), he played an integral role in developing an AI-assisted real-time data security solution. He holds numerous certifications from organizations such as CPD, FLETC, and DHS.

He is dedicated to educating leaders on technology options to enhance overall security and safety.

Help Wanted: Volunteer Leadership Opportunities with ASIS Chicago Chapter

The ASIS Chicago Chapter is currently seeking members for two important volunteer roles: Certification Chair and Law Enforcement Liaison.

Certification Chair

Must be a member in good standing and hold a CPP, PSP, or PCI certification. This role promotes ASIS certifications, supports candidates through the application process, and helps lead the Chapter's annual study group.

Law Enforcement Liaison

This role helps strengthen relationships between the Chapter and local law enforcement partners, encouraging collaboration, engagement, and information sharing within the security community.

These are rewarding leadership opportunities to expand your network, earn volunteer credits, and give back to the profession.

Interested? Contact our current Chapter Chair, Mary Therese Tylus, MA at marytylus@comcast.net or Vice-Chair, Andrew Bartol, MBA at andrew.bartol@prosegur.com for more information regarding this exciting, rewarding and important Chapter Volunteer Leader position.

**HELP
NEEDED**

The Value of an ASIS Certification

Enjoy personal satisfaction and professional achievement by:

- Validating your security management expertise
- Elevating your stature in the profession
- Gaining a competitive edge in the marketplace
- Enhancing your career and earnings potential. ASIS certificants earn an average of 20% higher salaries than those without an ASIS certification (per ASIS Certification Survey – April 2019)
- Broadening experience and training from law enforcement and military backgrounds

The Value of an ASIS Certification to Your Employer

- Build a strong, dedicated team committed to high standards and continuing professional development
- Promote ongoing enhancement of critical job knowledge and skills
- Feel confident that your staff are using best practices
- Recruit the most qualified professionals
- Reinforce or elevate your organization's reputation and credibility

Ready to Accelerate Your Security Career? Apply For the Associate Protection Professional (APP) Today

Level Up Your Security Career

Nothing beats experience-based knowledge when it comes to demonstrating your skills, expertise, and proficiency. That's why eligibility requirements for the Associate Protection Professional (APP®) credential have been modified to better reflect the real-world experience of today's incoming and transitioning security professionals. Apply to earn your APP Certification with just one year of compensated security experience—no college degree or management experience required.

Make the Smart Move

Where do you want to go in your security career? The Associate Protection Professional (APP®) certification will help you get there. This globally recognized designation from ASIS International opens new pathways for professionals who have recently entered the security field. Get started today.

Ready to Launch?

Whether you've recently obtained your degree or made the switch from an entirely different sector, the APP certification is your first step in advancing your security career. This designation, which you can earn with only a year of applicable experience, shows hiring managers that you have an assured grasp of the fundamental security skills you need to level up your career. Build confidence in your security skills and knowledge—earn your APP credential now.

Fast Facts: 7 Types of Disinformation

Misinformation and disinformation topped the World Economic Forum's (WEF) *Global Risks Report 2025* two-year ranking, and the interplay of false information with political and societal polarization creates ideal conditions for civil upheaval. Changing technological capabilities—including the use of artificial intelligence (AI)—makes the generation and spread of false narratives easier and faster, simultaneously making them harder to detect and remove.

“Threat actors, state agencies in some countries, activist groups, and individuals who may or may not have criminal intentions can automate and expand disinformation campaigns, greatly increasing their reach and impact,” the report said.

To determine how best to respond to false information and narratives, it's important to clearly analyze the type of message. Learn more in the video below.

Executive Targeting Incidents Doubled in 2025, Report Finds

Threats against senior corporate leaders escalated sharply during the past year, with incident levels reaching their highest point on record in 2025, according to new research from the Security Executive Council (SEC).

The study, *Executive Targeting Report: Analysis of Attacks on Corporate Executives from 2003-2025*, documents 424 open source reported incidents worldwide. By the end of October 2025, incident volume had doubled from 2024 levels.

The dataset behind the report is part of a multiyear collaboration between the SEC and Mercyhurst University's Business Intelligence and Innovation Lab, with analytical support from the Center for Intelligence Research, Analysis, and Training. It included incidents targeting senior corporate executives, as well as family members and executive staff when they were clearly targeted as an extension of the executive.

"CEOs remain the primary targets, but attacks on other senior executives are rising, particularly in the technology and financial sectors," according to the report.

New International AI Safety Report Spotlights Emerging Risks

The International AI Safety Report 2026 found increasing and emerging concerns around the use of artificial intelligence (AI) in deepfakes, biological weapons, and cyberattacks. The authors reviewed the latest scientific research into the risks and abilities of general-purpose AI, which are models and systems that can perform a wide range of tasks in different contexts, such as creating text, images, audio, or other data that can be adapted to specific scenarios or applications.

This is the second edition of the report published by the AI Security Institute (part of the UK Department for Science, Innovation, and Technology) and supported by more than 30 nations and international organizations.

ASIS International Announces the Launching of a New Join Process

Effective February 14, 2024, ASIS International will launch the new join process. What does this mean for our new International members?

1. It will be easier to join ASIS International – the application stays the same, but the payment process will be easier. The website to join International remains <https://www.asisonline.org/join>
2. If International members want to purchase multiple products from the ASIS store with their membership – they will receive the membership discount. For example – someone may decide to add membership and a webinar to their cart – the webinar will be discounted to FREE at checkout due to the customer being recognized as a new member upon purchase.
3. Regardless of when someone joins, their International membership will be good for one FULL year (At this time, if you joined in March – though you'd pay full price, you'd only receive membership for 9 more months).
4. Expiration dates will appear in an International member's My Account section and multiple reminders will be sent out via ASIS International upon renewal time.
5. International members continue to have the ability to sign up for auto renewal and save 5% or renew for three years in advance to save 10% AND lock in the current price.
6. Soon International members will have the option to pay by PayPal.

Once you join – your International expiration date always stays the same. Unless you let your International membership lapse – then you would need to rejoin the International Association and you will receive a new International expiration date.

And when you join the Chicago Chapter as a new member and pay your dues what happens next? Your expiration date for your Chapter Dues will now be the same as your International Dues expiration date.

For now, those of us who have joined International and the Chapter prior to February 14, 2024, your International and Chapter Dues Expiration Date will continue to remain 12/31 of each year.

ASIS Chicago Chapter Event Registration Information

We always look forward to having everyone join us at our monthly chapter events and we welcome all guests! However, it's essential to ensure that you have provided your up-to-date contact information when signing up for yourself or a guest. We require this information to inform all attendees in case of an emergency, such as a cancellation or change in venue. Unfortunately, during our January meeting, we had to cancel due to a burst water pipe, and we were unable to reach everyone. We noticed that some people did not enter a phone number when registering, or if someone registered a guest, they did not include their contact information. Therefore, please make sure to add your contact information when registering for our events, including your phone number and email address. Current ASIS members can keep this information updated from their International and Chapter profiles, while non-members can update this information when registering for an upcoming event. Thank you, and we look forward to seeing you at one of our future events!

Making Profile Changes to your ASIS International & Chicago Chapter Profile

Did you know that if you make changes to your ASIS International Profile, you have to go into your Chicago Chapter Profile and do the same? Yes, unfortunately, when an International & Chicago member makes a change to their profile in either system, the changes do not carryover. Thus, if you change jobs, change emails, add a certification, etc., you must make those changes in both systems. So, periodically check your International and your Chicago Profile for accuracy and up-to-date information. Your profile is only as good as you keep it current.

Do You Feel Overwhelmed by the Emails Being Sent From ASIS?

We have heard from several Chicago members that they feel inundated and overwhelmed with emails from the Chapter. We as a Board and Chairs, do our best to keep our Chapter communications to a minimum. We send out one to two announcements per week for our upcoming events and increase the frequency the week of so that those whose schedules free up at the last minute can attend.

As we investigated this issue further, we believe that perhaps the root of the “too many emails from ASIS” are from International, specifically, the Community Connections emails. Based on your selected preferences in your International profile of interests/expertise, International will then send those applicable Community emails. Those notifications can be modified by going into your ASIS International profile and changing your ASIS Connected Community Settings and/or your email & communication preferences as follows:

Step 1: After logging into ASIS International, click on My Information, select My Account, and then in the ASIS Links box to the right – My Communication Preferences.

Step 2: After making and saving changes scroll to the bottom of the page and click on ASIS Connected Community. Click on My Connections to see which ASIS Communities you are enrolled in and determine how often you want to receive them – daily or weekly. Make your changes and then hit save (also check to see who you are following).

Step 3: Move to the My Community Tab and select Email Preferences and verify or change your preferences and hit save. In this same tab, select Communication Notifications and do the same.

Need help? Call ASIS International Membership (703-519-6200) and they can help walk you through the process.

Update: Meeting Announcements From Chapter Webmaster

Below is an article from StarChapter, our website service and the service we use to send out mass emails to our Chapter members and nonmembers explaining a change in the From Address from mass emails coming from our Chapter. In the past the announcements about our meetings and events used to come from ***webmaster@asischicago.net***. The new email address being used is now: ***postmaster@mg.asischicago.net***. Please make sure that you check your junk and spam folders in case these emails are going there and unblock that new ***postmaster@mg.asischicago.net***. Thanks.

StarChapter made some updates to our mass emailing features to comply with new guidelines required by Google and Yahoo. This change in From Address is in place to ensure to those providers that mass emails coming from your organization are authentic, and not spam. It may take some time for all email providers to adapt based on those guidelines, as all bulk email tools are experiencing an increase in delivery issues immediately following these new requirements. This issue should improve as email providers adapt to the new policies.

Moving forward, all mass email sent through your StarChapter system will be from ***postmaster@mg.yourdomain.ext***. ***Yourdomain.ext*** will be replaced with your organization's domain name. You will still have the ability to add a unique reply-to email address or sender name to your message when setting up your email campaigns.

Please reference ***[this article](#)*** for further information and tips to maximize your delivery.

Best,

The StarChapter Team

New Chapter Luncheon Ticket Price for Law Enforcement and Military Personnel

The ASIS Chicago Chapter is proud to announce a special ticket price of \$19 for all law enforcement and military personnel to come join us at our regular monthly Chapter Luncheon meetings. Our monthly Chapter meetings are held on the 3rd Thursday of the month at Harry Caray's River North, 33 W. Kinzie in Chicago, IL. Come join us for networking, a great lunch, and fantastic guest speakers on various topics relevant to security practitioners.

As we prepare for a new year of events, we want to extend our sincere appreciation to everyone who joined us throughout 2025. Your continued support—along with the expertise and generosity of our speakers—has been essential to the success of the ASIS Chicago Chapter's events and initiatives.

Looking ahead, 2026 is already shaping up to be an exciting year filled with outstanding speakers, educational sessions, and networking opportunities. We encourage you to review the calendar above and begin marking your dates now so you don't miss any of the programs we have planned. For added convenience, each meeting date on the calendar is clickable—just select the event to be taken directly to its registration page.

Thank you once again for your commitment to the ASIS Chicago Chapter. We look forward to another engaging and successful year with you!

Make Sure to Follow the New ASIS Chicago Chapter LinkedIn Page

Hello everybody! Currently, there are two different LinkedIn pages for the ASIS Chicago Chapter. One of the pages is a private group page and the other one is a public company page. These two different LinkedIn pages can often cause confusion on where to look and interact with. Due to these issues, we as a chapter will no longer be supporting or posting on the private group page. All social media content moving forward will be posted on ASIS Chicago Chapter's public LinkedIn page. This new change will give us the option to attract new members to the chapter and upcoming events. If you have not done so already then make sure to follow the new public LinkedIn page to stay up to date with chapter events and news!
