March 2026 Message from Your Chapter Chair, Mary Therese Tylus, MA

Happy St. Patrick's Day and Women in Security month, everyone! A shout-out to all the Women in Security this month, and to those who have assisted in any way in mentoring and guiding the women in our field.

With sadness, I am announcing that due to the demands of work and other obligations, our current three Chapter Women-In Security Co-Chairs – Alex McNulty, Brandi Srda, CPP, and Wendy Young have informed the Chapter that they are stepping down from their duties. I want to take this opportunity to thank all three of them for their dedication to the position these past three years and all their efforts in putting on some fantastic Women In Security events. We appreciate their time and dedication to this volunteer role for the Chapter.

With great excitement, I am pleased to announce our new WIS Co-Chairs – Ewa Urbanowicz of Atlas Risk Advisory, LLC, and Angela Hardney of GardaWorld. Ewa and Angela are excited to come on board and to share their time and talents with the Chapter in this role. We are excited to have them join the Team and are looking forward to future WIS events. Welcome aboard, Ewa and Angela!

I would also like to introduce you to our new Law Enforcement Liaison, Sgt. Jason Kohl from the Evanston Police Department. Jason's role with the Chapter will be to reach out to various law enforcement at all levels (active and retired) and spread the word about ASIS International and the Chapter. We are excited to have Jason join our Team! Welcome aboard, Jason!

Join us for our monthly Chapter meeting on Thursday, March 19, 2026, at Harry Caray's. Our featured speakers are Jennifer Mackovjak, Managing Partner/Co-Founder, 221B Partners, Rebecca Laflure, Senior Director, 221B Partners, and Talia Beechick, Senior Director, 221B Partners who will be speaking on the topic of The Force Multiplier: How Third-Party Investigations and Intel Supercharge Internal Security. Tickets are on sale now, so don't forget to sign up! I look forward to seeing all of you at the meeting!

NextGen/Mentorship Chairs are planning an evening networking event on Wednesday, April 22, 2026, from 5 – 7 pm. Look for more details in your email inbox coming soon regarding location and cost. Also, if anyone would like to assist with sponsoring the event, please contact our Mentorship Chair, Omar Scarpetta, at scarpettaomar@gmail.com, or Mike Ortiz, NextGen Chair at mike.ortiz@bmo.com. A third way to sponsor this event or any other upcoming events is to go to our website, www.asischicago.net/ASIS_Chicago_Event_Sponsor, make a sponsorship donation in any amount, and earmark for one of our events or this event. We truly appreciate our sponsors who faithfully sponsor many of our events.

Celebrating Women in Security Month

March is Women in Security Month, and the ASIS Chicago Chapter is proud to recognize and celebrate the outstanding women who lead, innovate, and strengthen our industry every day.

Women in security continue to shape the future of our profession through leadership, mentorship, technical expertise, and operational excellence. This month, we especially want to highlight and thank the incredible women who serve in leadership roles within our own Chapter.

Please join us in recognizing our ASIS Chicago “Women of Security”:

- **Mary Therese Tylus, MA** – Chapter Chair – Tylus Training Services
- **Anna Tobkin** – Chapter Secretary – Imperial Surveillance, Inc.
- **Lisa Menner** – Chapter Co-Treasurer – Communications Engineering Company
- **Connika King** – Chapter Co-Webmaster – Titan Security
- **Ewa Urbanowicz** – Women-In-Security Co-Chair – Atlas Risk Advisory, LLC
- **Angela Hardney** – Women-In-Security Co-Chair – GardaWorld
- **Alex McNulty** – Past Chapter Women-In-Security Co-Chair - Velasea
- **Brandi Srda, CPP** – Past Chapter Women-In-Security Co-Chair – Willis Tower
- **Wendy Young** – Past Chapter Women-In-Security Co-Chair – Milestone Systems

Through their leadership, dedication, and service, these women help drive the success of our Chapter and elevate the security profession as a whole.

We thank them — and all women in security — for their commitment, expertise, and impact.

Some Changes to Chapter Practices Beginning Immediately:

- Starting immediately, the Chapter will no longer have available at pre-registration for our events “Pay at the Door”. We have run into problems with members/nonmembers registering for events with Pay at the Door and then not showing. Because we count you in the RSVP, we are still charged for that ticket. Therefore, to avoid attempting to collect later, we are no longer providing that courtesy. All registrations starting with our Holiday Party 2025 will require payment at the time of registration.
- We will still be able to take “walk-ins” on a limited basis at our events, so if your schedule frees up at the last minute, please feel free to attend an event. The only exception is if there is a hard RSVP date, then walk-ins will not be available.
- When you pay your Chapter Dues now, you will have the option of checking the “Auto Renew Button”. This way, just like International, we are rolling out this feature to make paying your Yearly Chapter Dues easier for everyone! We hope you enroll in that new feature!
- Note that beginning with registration for our January Chapter meetings, the ticket price has gone up slightly. See elsewhere in this newsletter where we highlight the new ticket prices.

We appreciate your understanding as we implement these changes in order to maintain the financial health of the Chapter.

New Pricing for 2026 Monthly Meetings

Due to a slight increase in pricing from Harry Caray's for 2026, our ticket prices for the monthly Chapter meetings are increasing slightly, starting with ticket sales for our January 2026 meeting:

\$50 – Member No Parking

\$60 – Nonmember No Parking

\$58 – Member + Valet Parking

\$68 – Nonmember + Valet Parking

Ticket prices for the monthly 2026 Chapter meetings for the Chapter's Law Enforcement and Military remain the same:

\$19.00 Member Current/Retired Law Enforcement/Military Discount + Valet Parking

\$19.00 Non-Member Current/Retired Law Enforcement/Military Discount + Valet Parking

The Force Multiplier: How Third-Party Investigations and Intel Supercharge Internal Security

This presentation highlights the importance of understanding and utilizing publicly available information and open-source intelligence (OSINT), including court records, news articles, social media content, Freedom of Information Act (FOIA) requests and deep and dark web records, to ensure the safety, security and integrity of executives, employees and corporations. We will discuss the tools typically used by private investigators to dig deeper and gain critical intelligence for security teams and HR personnel to make better informed decisions, more effectively tailor security plans and mitigate against ongoing and future threats. We will discuss multiple case scenarios in which our findings helped our clients ensure executive and personnel safety and gain critical insight into known and unknown threat actors. Attendees will learn the importance of bridging the gap between physical security expertise and real-time intelligence to better protect people, performance and reputation.

Help Wanted: Volunteer Leadership Opportunities with ASIS Chicago Chapter

The ASIS Chicago Chapter is currently seeking members for our Certification Chair position.

Certification Chair

Must be a member in good standing and hold a CPP, PSP, or PCI certification. This role promotes ASIS certifications, supports candidates through the application process, and helps lead the Chapter's annual study group.

This position is a rewarding leadership opportunity to expand your network, earn volunteer credits, and give back to the profession.

Interested? Contact our current Chapter Chair, Mary Therese Tylus, MA at marytylus@comcast.net or Vice-Chair, Andrew Bartol, MBA at andrew.bartol@prosegur.com for more information regarding this exciting, rewarding and important Chapter Volunteer Leader position.

**HELP
NEEDED**

The Value of an ASIS Certification

Enjoy personal satisfaction and professional achievement by:

- Validating your security management expertise
- Elevating your stature in the profession
- Gaining a competitive edge in the marketplace
- Enhancing your career and earnings potential. ASIS certificants earn an average of 20% higher salaries than those without an ASIS certification (per ASIS Certification Survey – April 2019)
- Broadening experience and training from law enforcement and military backgrounds

The Value of an ASIS Certification to Your Employer

- Build a strong, dedicated team committed to high standards and continuing professional development
- Promote ongoing enhancement of critical job knowledge and skills
- Feel confident that your staff are using best practices
- Recruit the most qualified professionals
- Reinforce or elevate your organization's reputation and credibility

Ready to Accelerate Your Security Career? Apply For the Associate Protection Professional (APP) Today

Level Up Your Security Career

Nothing beats experience-based knowledge when it comes to demonstrating your skills, expertise, and proficiency. That's why eligibility requirements for the Associate Protection Professional (APP®) credential have been modified to better reflect the real-world experience of today's incoming and transitioning security professionals. Apply to earn your APP Certification with just one year of compensated security experience—no college degree or management experience required.

Make the Smart Move

Where do you want to go in your security career? The Associate Protection Professional (APP®) certification will help you get there. This globally recognized designation from ASIS International opens new pathways for professionals who have recently entered the security field. Get started today.

Ready to Launch?

Whether you've recently obtained your degree or made the switch from an entirely different sector, the APP certification is your first step in advancing your security career. This designation, which you can earn with only a year of applicable experience, shows hiring managers that you have an assured grasp of the fundamental security skills you need to level up your career. Build confidence in your security skills and knowledge—earn your APP credential now.

Fast Facts: Healthcare Worker Safety in 2025

Even within the same industry, effective security rarely looks the same from one facility to the next. In healthcare, the facilities and offered services greatly vary, depending on the level of expertise, funding, and technology available. The security solutions to protect doctors, nurses, staff, patients, and the community also vary between the types of facilities and their locations.

However, even when security measures are in place, that doesn't guarantee that incidents of workplace violence won't occur. Recent *research* into security and workplace safety in U.S. healthcare settings, conducted by The Harris Poll on behalf of Verkada, looked at how safe healthcare workers feel on the job.

To learn more, watch the video below.

IT Decision-Makers Put Physical Security Purchases Under the Microscope

IT professionals are increasingly enmeshed in decisions about physical security system purchases. Along with profound influence over budgets and oversight of system data, they bring strict scrutiny of vendors' risk profiles—making system manufacturers and installers up their game.

While security end users reported that executive leadership is most involved in their security system purchasing decisions, systems integrators and consultants are more focused on technical decision-makers, such as IT and physical security departments, according to the State of Physical Security 2026 report from Genetec.

“The increasing sophistication of physical security operations has compelled the industry to evaluate new, innovative software and hardware. As physical security intersects with other departments and generates mission-critical data, IT has become an active participant in the industry’s technology evolution,” the report said.

Rethinking Physical Security: Why Life-Cycle Management is Now Table Stakes

For security leaders across industries—whether at a university dealing with legacy infrastructure, a retailer managing dozens of vendors, or a manufacturer trying to track thousands of devices—the pattern is the same. Infrastructure has scaled. Complexity has increased. But the way it’s managed hasn’t changed much.

Most teams rely on trusted vendors, capable internal staff, and familiar processes. But underneath that, the operating model is stretched thin. Floor plans live in computer-aided design (CAD) files or PDFs. Device information is maintained in spreadsheets. Service history and warranty information are fragmented or incomplete. As systems expand, so does the effort required just to keep things running.

Spotting and Shutting Security Gaps in Healthcare Visitor Management

Nurses in two major New York City hospital systems were on strike this year due to concerns about staffing levels, workplace safety, and health insurance. While a tentative agreement was announced on 9 February that could end the dispute, it's no surprise that workplace violence is a top concern for healthcare professionals.

In 2020, 76 percent of all U.S. victims who experienced trauma due to workplace violence worked in the healthcare and social assistance industry, according to the U.S. Centers for Disease Control and Prevention.

Similarly, the U.S. Bureau of Labor Statistics reported that healthcare workers experienced the highest incidence rates for workplace violence in 2021 and 2022, according to the latest data. "There were 41,960 total nonfatal cases of workplace violence requiring days away from work, job restriction, or transfer in the health care and social assistance industry over this time, accounting for 72.8 percent of all cases in private industry over the two-year period," the bureau reported.

ASIS International Announces the Launching of a New Join Process

Effective February 14, 2024, ASIS International will launch the new join process. What does this mean for our new International members?

1. It will be easier to join ASIS International – the application stays the same, but the payment process will be easier. The website to join International remains <https://www.asisonline.org/join>
2. If International members want to purchase multiple products from the ASIS store with their membership – they will receive the membership discount. For example – someone may decide to add membership and a webinar to their cart – the webinar will be discounted to FREE at checkout due to the customer being recognized as a new member upon purchase.
3. Regardless of when someone joins, their International membership will be good for one FULL year (At this time, if you joined in March – though you'd pay full price, you'd only receive membership for 9 more months).
4. Expiration dates will appear in an International member's My Account section and multiple reminders will be sent out via ASIS International upon renewal time.
5. International members continue to have the ability to sign up for auto renewal and save 5% or renew for three years in advance to save 10% AND lock in the current price.
6. Soon International members will have the option to pay by PayPal.

Once you join – your International expiration date always stays the same. Unless you let your International membership lapse – then you would need to rejoin the International Association and you will receive a new International expiration date.

And when you join the Chicago Chapter as a new member and pay your dues what happens next? Your expiration date for your Chapter Dues will now be the same as your International Dues expiration date.

For now, those of us who have joined International and the Chapter prior to February 14, 2024, your International and Chapter Dues Expiration Date will continue to remain 12/31 of each year.

ASIS Chicago Chapter Event Registration Information

We always look forward to having everyone join us at our monthly chapter events and we welcome all guests! However, it's essential to ensure that you have provided your up-to-date contact information when signing up for yourself or a guest. We require this information to inform all attendees in case of an emergency, such as a cancellation or change in venue. Unfortunately, during our January meeting, we had to cancel due to a burst water pipe, and we were unable to reach everyone. We noticed that some people did not enter a phone number when registering, or if someone registered a guest, they did not include their contact information. Therefore, please make sure to add your contact information when registering for our events, including your phone number and email address. Current ASIS members can keep this information updated from their International and Chapter profiles, while non-members can update this information when registering for an upcoming event. Thank you, and we look forward to seeing you at one of our future events!

Making Profile Changes to your ASIS International & Chicago Chapter Profile

Did you know that if you make changes to your ASIS International Profile, you have to go into your Chicago Chapter Profile and do the same? Yes, unfortunately, when an International & Chicago member makes a change to their profile in either system, the changes do not carryover. Thus, if you change jobs, change emails, add a certification, etc., you must make those changes in both systems. So, periodically check your International and your Chicago Profile for accuracy and up-to-date information. Your profile is only as good as you keep it current.

Do You Feel Overwhelmed by the Emails Being Sent From ASIS?

We have heard from several Chicago members that they feel inundated and overwhelmed with emails from the Chapter. We as a Board and Chairs, do our best to keep our Chapter communications to a minimum. We send out one to two announcements per week for our upcoming events and increase the frequency the week of so that those whose schedules free up at the last minute can attend.

As we investigated this issue further, we believe that perhaps the root of the “too many emails from ASIS” are from International, specifically, the Community Connections emails. Based on your selected preferences in your International profile of interests/expertise, International will then send those applicable Community emails. Those notifications can be modified by going into your ASIS International profile and changing your ASIS Connected Community Settings and/or your email & communication preferences as follows:

Step 1: After logging into ASIS International, click on My Information, select My Account, and then in the ASIS Links box to the right – My Communication Preferences.

Step 2: After making and saving changes scroll to the bottom of the page and click on ASIS Connected Community. Click on My Connections to see which ASIS Communities you are enrolled in and determine how often you want to receive them – daily or weekly. Make your changes and then hit save (also check to see who you are following).

Step 3: Move to the My Community Tab and select Email Preferences and verify or change your preferences and hit save. In this same tab, select Communication Notifications and do the same.

Need help? Call ASIS International Membership (703-519-6200) and they can help walk you through the process.

Update: Meeting Announcements From Chapter Webmaster

Below is an article from StarChapter, our website service and the service we use to send out mass emails to our Chapter members and nonmembers explaining a change in the From Address from mass emails coming from our Chapter. In the past the announcements about our meetings and events used to come from ***webmaster@asischicago.net***. The new email address being used is now: ***postmaster@mg.asischicago.net***. Please make sure that you check your junk and spam folders in case these emails are going there and unblock that new ***postmaster@mg.asischicago.net***. Thanks.

StarChapter made some updates to our mass emailing features to comply with new guidelines required by Google and Yahoo. This change in From Address is in place to ensure to those providers that mass emails coming from your organization are authentic, and not spam. It may take some time for all email providers to adapt based on those guidelines, as all bulk email tools are experiencing an increase in delivery issues immediately following these new requirements. This issue should improve as email providers adapt to the new policies.

Moving forward, all mass email sent through your StarChapter system will be from ***postmaster@mg.yourdomain.ext***. ***Yourdomain.ext*** will be replaced with your organization's domain name. You will still have the ability to add a unique reply-to email address or sender name to your message when setting up your email campaigns.

Please reference ***this article*** for further information and tips to maximize your delivery.

Best,

The StarChapter Team

New Chapter Luncheon Ticket Price for Law Enforcement and Military Personnel

The ASIS Chicago Chapter is proud to announce a special ticket price of \$19 for all law enforcement and military personnel to come join us at our regular monthly Chapter Luncheon meetings. Our monthly Chapter meetings are held on the 3rd Thursday of the month at Harry Caray's River North, 33 W. Kinzie in Chicago, IL. Come join us for networking, a great lunch, and fantastic guest speakers on various topics relevant to security practitioners.

2026 is already shaping up to be an exciting year filled with outstanding speakers, educational sessions, and networking opportunities. We encourage you to review the calendar above and begin marking your dates now so you don't miss any of the programs we have planned. For added convenience, each meeting date on the calendar is clickable—just select the event to be taken directly to its registration page.

Thank you once again for your commitment to the ASIS Chicago Chapter. We look forward to another engaging and successful year with you!

Make Sure to Follow the New ASIS Chicago Chapter LinkedIn Page

Hello everybody! Currently, there are two different LinkedIn pages for the ASIS Chicago Chapter. One of the pages is a private group page and the other one is a public company page. These two different LinkedIn pages can often cause confusion on where to look and interact with. Due to these issues, we as a chapter will no longer be supporting or posting on the private group page. All social media content moving forward will be posted on ASIS Chicago Chapter's public LinkedIn page. This new change will give us the option to attract new members to the chapter and upcoming events. If you have not done so already then make sure to follow the new public LinkedIn page to stay up to date with chapter events and news!
