September 2025 Message from Your Chapter Chair, Mary Therese Tylus, MA

Hope everyone had a wonderful Labor Day weekend and enjoyed the last remnants of summer.

Our next Chapter meeting is on Thursday, September 18, 2025, at our usual time at Harry Caray's. Our guest speaker will be Pierre Bourgeix of ButckoESI speaking on the topic of How The Growth And Implementation Of AI Will Impact Security. More information regarding this topic is contained in the newsletter so book your reservation now.

We have also confirmed our guest speaker for our October 16, 2025, G. Michael Verden, of the Lake Forest Group, who will discuss the Trump Assassination Attempt in West Palm Beach, Florida: What We Learned to Prevent Future Attacks. We are already accepting registrations for this meeting as well, and more information regarding this interesting topic is contained in the newsletter.

The SIA organization is hosting a happy hour on Thursday, September 18, 2025, from 5 pm – 7:30 pm at the Security Innovation Hub located at 1302 South Kilbourn Ave., Chicago, IL 60623 in honor of Security Professional's Day in Illinois. Contact the Security Innovation Hub if you are interested in attending this free event.

Don't forget GSX 2025 in New Orleans this year. Dates are September 29 through October 1, 2025. Hope to see many of you there! Registration is still open, so hurry and book your reservations!

The Women In Security Co-Chairs are busy planning the upcoming Tri-Chapter Women In Security Event set to be held at the end of October. Look for more information in the newsletter and save the date.

The date for our annual golf outing has been set for next year – Friday, July 17, 2026, at Carriage Greens Country Club, 8700 Carriage Greens Dr., Darien, IL 60561. Save the date fliers are being posted on LinkedIn and will be available at Chapter meetings. More information, as we solidify the details, will be shared via our newsletter, LinkedIn posts, and email blasts. Looking forward to seeing everyone at this yearly event for more networking and fun!

Looking forward to seeing everyone at our September 18, 2025, meeting.

SEPTEMBER MEETING

SPEAKER INFORMATION

Event Speaker:

Pierre Bourgeix

Topic: Making AI
Work for Security

Within the security industry, Pierre spent 30 years as a global security consultant and innovator at such industry leaders as ADT, HySecurity, Wallace International, Tyco, SecureState, and ESICONVERGENT LLC. Pierre has had years of experience within the physical and cyber security arena and has been involved in developing security governance programs, and has been integral in the design of enterprise security systems. His primary expertise is Physical, Cyber Security Governance, and he is an SME in video security analytics and integration. Pierre's path has taken him from the Physical security barrier industry, gate control, electronic security, managed services security, and finally the cybersecurity arena. Pierre has worked on projects throughout the middle east including Saudi Arabia, UAE, Kuwait, and throughout the middle East and Asia. Pierre has spoken at many conferences, such as ISC, Manufacturer events, and association meetings globally. Pierre is one of the thought leaders in the convergence of IT, OT, and Physical Security. He is presently involved in creating security standards for the testing of products, systems, and solutions. Pierre has also developed a model that will explain the Physical Security Kill chain, which will lead to the need for proper predictive analytics across IT, OT, and Physical Security. Pierre has assisted in developing a Converged Security Gap Assessment that can assist companies in developing a proper risk rating across IT, OT, and Physical Security. He has also been involved in helping create the SIA cyber security certificate. Pierre speaks fluently in English, French, and Arabic.

ASIS CHICAGO CHAPTER

OCTOBER MEETING

OCTOBER 16, 2025
11:00 AM - 1:30 PM

Mike Verden

Founder and CEO of The Lake Forest Group

Topic:

The Trump Assassination Attempt in West Palm Beach, Florida: What We Learned to Prevent Future Attacks

On September 15, 2024, former U.S. President and 2024 Republican presidential nominee Donald Trump survived an assassination attempt while golfing at Trump International Golf Club in West Palm Beach, Florida—just 64 days after a similar attempt at a campaign rally in Butler, Pennsylvania. The U.S. Secret Service faced heavy criticism for significant oversights, including failing to secure the course's perimeter and shortcomings in pre-event briefings, technology deployment, countersurveillance, tactical assets, and post assignments. G. Michael Verden, a former Secret Service agent with experience in the Major Events Division, Counter Assault Team, and Presidential Protective Division, will discuss the detailed planning required for securing outdoor events like golf courses, how lead agencies coordinate with local, state, and federal authorities to develop integrated security plans, and the security deficiencies uncovered in the investigation to highlight measures that can prevent future attacks on public officials.

OCTOBER MEETING

SPEAKER INFORMATION

Event Speaker:

Mike Verden

Founder and CEO of The
Lake Forest Group

The Trump Assassination Attempt in West Palm Beach, Florida: What We Learned to Prevent Future Attacks

Mike Verden, Founder and CEO of The Lake Forest Group, helps organizations keep their employees safe from active shooters, workplace violence, and emergencies. He is a former police officer, retired Secret Service, and past Senior Director of Security for the NBA. Mike was born in Tipperary, Ireland, grew up in Chicago, began his professional career with the Skokie Police Department, became a Secret Service agent in the Chicago Field Office, and later moved on to serve on the Presidential Protective Division, Counter Assault Team, and Major Events Division to protect the President, First Lady, and large-scale events like the Olympics and Super Bowl. He graduated from Western Illinois with a degree in Law Enforcement Administration and Indiana State with an M.S. in Criminology.

The Value of an ASIS Certification

Enjoy personal satisfaction and professional achievement by:

- Validating your security management expertise
- Elevating your stature in the profession
- Gaining a competitive edge in the marketplace
- Enhancing your career and earnings potential. ASIS certificants earn an average of 20% higher salaries than those without an ASIS certification (per ASIS Certification Survey – April 2019)
- Broadening experience and training from law enforcement and military backgrounds

The Value of an ASIS Certification to Your Employer

- Build a strong, dedicated team committed to high standards and continuing professional development
- Promote ongoing enhancement of critical job knowledge and skills
- Feel confident that your staff are using best practices
- Recruit the most qualified professionals
- Reinforce or elevate your organization's reputation and credibility

Help Needed: ASIS Chicago Chapter Certification Chair Position is Available

The ASIS Chicago Chapter is looking for a member in good standing with both International and the Chicago Chapter to become our Chapter's Certification Chair and to assume this vital and important role for the Chapter. Here are the requirements:

- Must be a member in good standing with both International and the Chicago Chapter with dues paid up annually to both.
- Possess an ASIS CPP Certification.
- Promote ASIS Certifications to the Chapter membership.
- Develop and manage Chapter certification review programs ie crafting, direction, and facilitating the annual Chicago Chapter's study group.
- Assist certification candidates with the certification application and exam scheduling process.
- Provide Chapter newsletter team with the Chapter specific certification news (newly certified members, review programs, changes to ASIS certification policies and resources, etc.)
- Receive automatic ASIS credits for volunteering.
- Personal pride and accomplishment from assisting security professionals with their professional development goals.
- Becoming the Chapter's subject matter expert on ASIS Certifications, credentials, etc.

Interested? Contact our current Chapter Chair, Mary Therese Tylus, MA at marytylus@comcast.net or Vice-Chair, Sue Monreal, CPP at smonreal@titan-security.com for more information regarding this exciting, rewarding and important Chapter Volunteer Leader position.

Fast Facts: 6 Reasons People Resist Change

Change is inevitable, in one way or another. It can elicit a variety of emotional and logical responses, especially at work when it comes with a perceived loss of control or potential threats to existing operations.

Leaders seeking to influence change often run up against resistance from employees, managers, executives, and outside stakeholders, which can endanger future-facing projects.

To overcome that resistance, leaders must first understand it. Watch the video below for an overview of some of the typical causes of resistance to change.

Widening the Lens: A Strategic Guide to Body-Worn Camera Programs Across Sectors

A wide range of industry sectors, from law enforcement and healthcare to retail and even commercial applications, are increasingly adopting body-worn camera technology.

Once primarily used by police departments—some of which mandate their use—these devices are vital tools for capturing a complete and accurate account of events. But introducing these cameras into new segments can raise important considerations, such as navigating the marketplace, overcoming resistance, and addressing legal and ethical concerns.

Despite these hurdles, many stakeholders are actively evaluating how body-worn cameras can address their issues while delivering meaningful and measurable outcomes.

AI's Potential as a Natural Disaster Preparedness Tool

In an ASIS research project on security trends published earlier this year, 15 percent of security professionals reported that they used artificial intelligence (AI) to analyze threat capabilities or probabilities. It was one of eight use cases asked about in the survey.

Other use cases included “added surveillance object detection or motion tracking capability” and “added advanced biometrics or facial recognition to access control.” Of the eight, more security professionals said they wanted to learn more about the use of AI to analyze threat capabilities and probabilities (65 percent) than any other use case. (For more on the study, see the ASIS research report *Understanding the Evolving Role of Security*, which was sponsored by Resolver.)

The Farmer and the Donkey: A True Fable About Threat Intelligence

In 2023, election strife struck Guatemala when the government in power worked feverishly to disallow election results that presented a reformer as the victor. Outside of Central America, the news likely registered as a blip—if it registered at all.

Automotive component manufacturer Yazaki North America had just opened a major facility in Guatemala, so it was monitoring the situation closely. And when election unrest grew and spread, protestors blocked Central American Highway 2 (CA2), the main—and in many places only—ground vehicle artery connecting North and South America. All of a sudden, dissent surrounding the Guatemalan election became an incident of acute strategic importance.

“You can’t make this stuff up,” says Mike Moorman, CPP, PCI, CSMP, senior manager of corporate security at Yazaki NA, describing getting reports from his shipping contractors that CA2 was being blocked by farmers who had driven their donkeys onto the roadway.

Ready to Accelerate Your Security Career? Apply For the Associate Protection Professional (APP) Today

Level Up Your Security Career

Nothing beats experience-based knowledge when it comes to demonstrating your skills, expertise, and proficiency. That's why eligibility requirements for the Associate Protection Professional (APP®) credential have been modified to better reflect the real-world experience of today's incoming and transitioning security professionals. Apply to earn your APP Certification with just one year of compensated security experience—no college degree or management experience required.

Make the Smart Move

Where do you want to go in your security career? The Associate Protection Professional (APP®) certification will help you get there. This globally recognized designation from ASIS International opens new pathways for professionals who have recently entered the security field. Get started today.

Ready to Launch?

Whether you've recently obtained your degree or made the switch from an entirely different sector, the APP certification is your first step in advancing your security career. This designation, which you can earn with only a year of applicable experience, shows hiring managers that you have an assured grasp of the fundamental security skills you need to level up your career. Build confidence in your security skills and knowledge—earn your APP credential now.

ASIS International Announces the Launching of a New Join Process

Effective February 14, 2024, ASIS International will launch the new join process. What does this mean for our new International members?

1. It will be easier to join ASIS International – the application stays the same, but the payment process will be easier. The website to join International remains <https://www.asisonline.org/join>
2. If International members want to purchase multiple products from the ASIS store with their membership – they will receive the membership discount. For example – someone may decide to add membership and a webinar to their cart – the webinar will be discounted to FREE at checkout due to the customer being recognized as a new member upon purchase.
3. Regardless of when someone joins, their International membership will be good for one FULL year (At this time, if you joined in March – though you'd pay full price, you'd only receive membership for 9 more months).
4. Expiration dates will appear in an International member's My Account section and multiple reminders will be sent out via ASIS International upon renewal time.
5. International members continue to have the ability to sign up for auto renewal and save 5% or renew for three years in advance to save 10% AND lock in the current price.
6. Soon International members will have the option to pay by PayPal.

Once you join – your International expiration date always stays the same. Unless you let your International membership lapse – then you would need to rejoin the International Association and you will receive a new International expiration date.

And when you join the Chicago Chapter as a new member and pay your dues what happens next? Your expiration date for your Chapter Dues will now be the same as your International Dues expiration date.

For now, those of us who have joined International and the Chapter prior to February 14, 2024, your International and Chapter Dues Expiration Date will continue to remain 12/31 of each year.

ASIS Chicago Chapter Event Registration Information

We always look forward to having everyone join us at our monthly chapter events and we welcome all guests! However, it's essential to ensure that you have provided your up-to-date contact information when signing up for yourself or a guest. We require this information to inform all attendees in case of an emergency, such as a cancellation or change in venue. Unfortunately, during our January meeting, we had to cancel due to a burst water pipe, and we were unable to reach everyone. We noticed that some people did not enter a phone number when registering, or if someone registered a guest, they did not include their contact information. Therefore, please make sure to add your contact information when registering for our events, including your phone number and email address. Current ASIS members can keep this information updated from their International and Chapter profiles, while non-members can update this information when registering for an upcoming event. Thank you, and we look forward to seeing you at one of our future events!

Making Profile Changes to your ASIS International & Chicago Chapter Profile

Did you know that if you make changes to your ASIS International Profile, you have to go into your Chicago Chapter Profile and do the same? Yes, unfortunately, when an International & Chicago member makes a change to their profile in either system, the changes do not carryover. Thus, if you change jobs, change emails, add a certification, etc., you must make those changes in both systems. So, periodically check your International and your Chicago Profile for accuracy and up-to-date information. Your profile is only as good as you keep it current.

Do You Feel Overwhelmed by the Emails Being Sent From ASIS?

We have heard from several Chicago members that they feel inundated and overwhelmed with emails from the Chapter. We as a Board and Chairs, do our best to keep our Chapter communications to a minimum. We send out one to two announcements per week for our upcoming events and increase the frequency the week of so that those whose schedules free up at the last minute can attend.

As we investigated this issue further, we believe that perhaps the root of the “too many emails from ASIS” are from International, specifically, the Community Connections emails. Based on your selected preferences in your International profile of interests/expertise, International will then send those applicable Community emails. Those notifications can be modified by going into your ASIS International profile and changing your ASIS Connected Community Settings and/or your email & communication preferences as follows:

Step 1: After logging into ASIS International, click on My Information, select My Account, and then in the ASIS Links box to the right – My Communication Preferences.

Step 2: After making and saving changes scroll to the bottom of the page and click on ASIS Connected Community. Click on My Connections to see which ASIS Communities you are enrolled in and determine how often you want to receive them – daily or weekly. Make your changes and then hit save (also check to see who you are following).

Step 3: Move to the My Community Tab and select Email Preferences and verify or change your preferences and hit save. In this same tab, select Communication Notifications and do the same.

Need help? Call ASIS International Membership (703-519-6200) and they can help walk you through the process.

Update: Meeting Announcements From Chapter Webmaster

Below is an article from StarChapter, our website service and the service we use to send out mass emails to our Chapter members and nonmembers explaining a change in the From Address from mass emails coming from our Chapter. In the past the announcements about our meetings and events used to come from ***webmaster@asischicago.net***. The new email address being used is now: ***postmaster@mg.asischicago.net***. Please make sure that you check your junk and spam folders in case these emails are going there and unblock that new ***postmaster@mg.asischicago.net***. Thanks.

StarChapter made some updates to our mass emailing features to comply with new guidelines required by Google and Yahoo. This change in From Address is in place to ensure to those providers that mass emails coming from your organization are authentic, and not spam. It may take some time for all email providers to adapt based on those guidelines, as all bulk email tools are experiencing an increase in delivery issues immediately following these new requirements. This issue should improve as email providers adapt to the new policies.

Moving forward, all mass email sent through your StarChapter system will be from ***postmaster@mg.yourdomain.ext***. ***Yourdomain.ext*** will be replaced with your organization's domain name. You will still have the ability to add a unique reply-to email address or sender name to your message when setting up your email campaigns.

Please reference ***this article*** for further information and tips to maximize your delivery.

Best,

The StarChapter Team

New Chapter Luncheon Ticket Price for Law Enforcement and Military Personnel

The ASIS Chicago Chapter is proud to announce a special ticket price of \$19 for all law enforcement and military personnel to come join us at our regular monthly Chapter Luncheon meetings. Our monthly Chapter meetings are held on the 3rd Thursday of the month at Harry Caray's River North, 33 W. Kinzie in Chicago, IL. Come join us for networking, a great lunch, and fantastic guest speakers on various topics relevant to security practitioners.

**We look forward to
seeing you at our
upcoming meetings!**

We will provide more details and information about the upcoming events as we get closer to them. Please keep an eye on our website and check your email inbox regularly for updates.

We had some incredible events and speakers in 2024, and we are confident that 2025 will be even better. Thank you for your continued support!

Make Sure to Follow the New ASIS Chicago Chapter LinkedIn Page

Hello everybody! Currently, there are two different LinkedIn pages for the ASIS Chicago Chapter. One of the pages is a private group page and the other one is a public company page. These two different LinkedIn pages can often cause confusion on where to look and interact with. Due to these issues, we as a chapter will no longer be supporting or posting on the private group page. All social media content moving forward will be posted on ASIS Chicago Chapter's public LinkedIn page. This new change will give us the option to attract new members to the chapter and upcoming events. If you have not done so already then make sure to follow the new public LinkedIn page to stay up to date with chapter events and news!
